# Index

## Volume 52 2008

### Compiled by Edward Swanson

General Procedures Used in Compiling the Index
The following types of entries are included:
a. authors—of articles, reviews, and letters
b. titles—of articles and of articles about which letters were published
c. subjects—of articles and of books reviewed

Subject entries for individuals and corporate bodies are identified by "*about*"; letters are identified by "(*c*)." Reviews are indexed by name of reviewer and by subject of the work reviewed, identified by "*reviews*." They are also listed by title under the heading "Books Reviewed."

Subject headings are based mainly on *ASIS&T Thesaurus of Information Science, Technology, and Librarianship*, 3d ed., edited by Alice Redmond-Neal and Marjorie M. K. Hlava (Medford, N.J.: Published on behalf of the American Society for Information Science and Technology by Information Today, Inc., 2005).

Paging of Volume 52:
Pages 1–72 = Number 1 (January)
Pages 73–144 [1-72] = Number 2 (April)*
Pages 145–216 = Number 3 (July)
Pages 217–284 = Number 4 (October)

***Note:** Due to a production error, the page numbers in Number 2 are incorrect. The correct page numbers are 73 through 144, instead of 1 through 72. The correct page numbers are given in the entries in this index, followed in brackets by the numbers that actually appear in the issue, e.g., 75–83 [3–11]
